	A PKV-45 DF station with red-white masts about 5 meters high was located about 1,000 meters southwest of the southwestern end of the runway. Between the masts was a small wooden house where 3 Russians wearing civilian clothes were observed. Just northwest of Diepensee was a large transmitting station with 4 masts about 20 meters high. Apparatuses with plates bearing the Telefunken trade mark were seen in the station. The transmitting station was occupied by 3 Russian civilians during daytime and 1 Russian civilian at night. 2		
	The flight control station was on the roof of the eastern hangar north of Diepensee. It was operated by 2 Russian civilians throughout the day and 1 Russian civilian during the night.		
	2 hussian civilize during the night.		
	Between 1400 and 1530 on 10 February, the following aircraft were observed at Schoenefeld airfield:	2	25}
	7 twin-engine aircraft		
	4 biplanes 2 high-wing monoplanes 4 twin-engine commercial aircraft		
	Of these aircraft, 3 twin-engine planes, the 4 biplanes and 2 high-wing monoplanes were parked in the northeastern corner of the field, 1 twin-engine aircraft was at the eastern end of the runway, 3 twin-engine aircraft were in front of the buildings in Diepensee, and the commercial planes were parked in front of the airfield terminal. The aircraft previously observed in front of the western hangar were not see? There was no air activity. 1
